**Subject:** San Jacinto Financial Assurance

I spoke to Al Axe (Waste Management) and Sonja Inglin (International Paper) about the financial assurance. We have financial assurance from IP for the removal (\$3.5 million, half of the \$7 million required) and Waste management for the RI/FS (\$1.5 million, half of the \$3 million required). Sonja said that IP submits an Annual Report to satisfy its \$1.5 million financial assurance requirement for the RI/FS, and that it did so within the last 10 days or so. Al Axe said that he would have to check about Waste Management's financial assurance for the removal.
